| Availability | immediately · remote or on-site Berlin · Germany-wide by arrangement |

### PROFILE

Senior systems engineer and IT security consultant with 20 years in regulated enterprise environments (Merrill Lynch / Bank of America, World Bank Group, Pfizer), most recently Manager of Engineering for a \$1B+ aerospace distributor with 12 sites and 2,000+ endpoints. Focus: Microsoft 365 and Azure, Entra ID / hybrid identity, Microsoft Intune, enterprise PKI and 802.1X, Cisco Meraki SD-WAN, Palo Alto / FortiGate firewalls, Zero Trust and readiness advisory (ISO 27001, NIS2, SOC 2, HIPAA). Founder of Klaravex (klaravex.com / klaravex.de), a managed IT and security provider for SMBs in the US, Germany and the EU.

### PROFESSIONAL EXPERIENCE

|                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

| 01/2026 – present | <p><b>Founder &amp; Principal Architect</b></p> <p>Klaravex LLC (USA) · Klaravex EU, klaravex.de (Berlin, formerly IT Experts Berlin) · remote / Berlin</p> <p><i>AI-powered managed IT and security provider: US SMBs via klaravex.com, businesses in Germany and the EU via klaravex.de (law, accounting, medical, financial advisory, architecture, real estate).</i></p> <ul style="list-style-type: none"><li>Designed and built the hybrid AI delivery platform: automated Tier 1/2 support, 24/7 monitoring with auto-remediation, onboarding/provisioning and reporting; escalation to senior engineers with fully documented context (2-hour SLA)</li><li>Productised operations into a repeatable service (Foundation / Assurance / Directive) with a client portal: live system status, AI chat, engineer visibility, automated documentation</li><li>Raised a client's Microsoft Secure Score from 32% to 78% in under 60 days (MFA, Conditional Access, M365 hardening, email security) — cyber-insurance requirements met</li><li>Zero-downtime migrations: 28-user Microsoft 365 migration in one week with zero data loss; full firewall and switching replacement over one weekend with no business disruption</li><li>Fractional vCIO / vCISO: technology roadmap, Azure adoption strategy, IT budgeting, readiness (HIPAA, SOC 2, GDPR, NIS2), board-level advisory</li></ul> |
| 04/2024 – 05/2026 | <p><b>Manager of Engineering – Infrastructure Architecture &amp; Global IT Delivery</b></p> <p>FDH Aero · remote / global (USA, Europe, Singapore, China)</p> <p><i>\$1B+ aerospace supply-chain distributor, 12 sites in 10+ countries; joined as Senior Systems Engineer, promoted to Manager of Engineering. Integration of four acquired entities onto one unified platform.</i></p> <ul style="list-style-type: none"><li>Global infrastructure transformation programme: 12 sites migrated to Cisco Meraki SD-WAN (MX250 HA clusters, vMX in Azure, VLAN micro-segmentation, MS-425 aggregation) with no production disruption</li><li>Designed and operated an enterprise PKI in Azure (CA hierarchy, certificate templates, auto-enrolment via Intune SCEP/NDES, revocation): eliminated password-based authentication</li></ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

- across 2,000+ managed endpoints, 100% certificate adoption
- RADIUS/RadSec 802.1X (EAP-TLS) at all 12 sites; shared WPA2 credentials fully eliminated, 99.2% Wi-Fi uptime
- Hybrid identity framework (Entra Connect, Hybrid Join, Conditional Access, MFA, PIM, SSO SAML/OIDC): 12 fragmented legacy environments consolidated under one governance model, 95%+ device compliance
- AD-to-Entra ID migration for four acquired companies: 3,200+ user accounts migrated with zero downtime, phased across time zones with rollback automation per phase
- APAC/China connectivity via Azure-hosted Meraki vMX with encrypted site-to-site tunnels and traffic segmentation (Great Firewall routing, data sovereignty)
- Tier 3 / global lead escalation for network, cloud and identity; advised VP and C-level on cloud roadmap, consolidation and cost optimisation

01/2018 – 04/2024

### Principal Consultant – Managed Services

Centered Networks Inc · managed service provider, USA · remote

*Supported 15+ SMB and mid-market clients across industries under managed-service agreements; Tier 2/3 escalation and virtual IT department for clients without internal IT.*

- Architected and deployed Azure and Microsoft 365 environments for 8+ client organisations (Entra ID, Exchange Online, SharePoint, Teams, Azure VPN, network segmentation); zero-downtime migrations, 99.9% post-migration uptime per SLA reporting
- Exchange Online migrations for 6 clients (350+ mailboxes) with zero data loss; Active Directory operated for 12 organisations (200+ servers, 800+ users), 99.95% authentication uptime
- Meraki SD-WAN and enterprise firewalls deployed and managed for 9 clients (15+ sites); 99% firewall uptime, zero security incidents across the portfolio
- M365 security baselines (Exchange Online Protection, Defender for Endpoint, Conditional Access); Intune MDM/MAM for Windows, iOS and Android fleets

01/2012 – 01/2018

### Senior Systems Engineer

The World Bank Group / Bank-Fund Staff FCU · Washington, DC, USA

- Administered Altiris for software deployment and patch management
- Operated VMware vSphere environments (vCenter, vMotion, NSX)
- Led disaster-recovery simulations including requirements analysis and vendor coordination

01/2007 – 01/2012

### Senior Network Administrator

Merrill Lynch / Bank of America · New York, USA

- Tier 3 support during the Merrill Lynch acquisition by Bank of America for 30,000+ end users
- Operational reorganisation delivering ~\$300K in annual cost savings
- Windows Server 2003 to 2012 migration

01/2005 – 01/2007

### Senior Systems Engineer

Educational Testing Service · Princeton, NJ, USA

01/2004 – 01/2005

### Junior Systems / Network Engineer

Pfizer · USA

## EDUCATION

### Bachelor of Science in Computer Science (B.Sc.)

Temple University, Philadelphia, PA, USA · 2005 – 2009

## CERTIFICATIONS

2024

Microsoft Certified: Azure Security Engineer Associate (AZ-500)  
Microsoft

2022

Palo Alto Networks Certified Network Security Engineer (PCNSE)  
Palo Alto Networks

2018

Cisco Certified Network Professional – Security (CCNP Security)  
Cisco
