

Anthony Stewart

Senior Microsoft 365, Azure, Entra ID, Intune & Cloud Migration Consultant

PROFILE

Senior IT consultant with 20 years of experience in regulated enterprise environments, specializing in Microsoft 365, Azure, Entra ID, Intune, and hybrid identity. Proven track record in cloud migrations, zero-downtime deployments, and enterprise security transformations. Currently founder of Klaravex, delivering AI-powered managed IT services for SMBs across the US, Germany, and EU. Previously led infrastructure and engineering programs at a \$1B+ aerospace distributor, managing global Microsoft 365 and Azure adoption, hybrid identity consolidation, and enterprise PKI implementations. Expertise spans M365 security hardening, conditional access policies, Intune MDM/MAM, Zero Trust architecture, and compliance readiness (HIPAA, SOC 2, GDPR, NIS2).

SKILLS

Microsoft 365 (Exchange Online, Teams, SharePoint, OneDrive, Defender, Purview) · Entra ID / Azure AD · Conditional Access · MFA · PIM · SSO (SAML, OIDC) · Microsoft Intune (MDM/MAM, Autopilot, compliance, SCEP certificates) · Azure (VNet, VPN Gateway, Azure Firewall, Azure Files, Automation, Sentinel) · Entra Connect · Hybrid Identity · Cloud Migration · Zero Trust · Enterprise PKI (CA, SCEP/NDES) · 802.1X / EAP-TLS · Cisco Meraki (MX/MS/MR/VMX, SD-WAN, AutoVPN) · Palo Alto Networks · FortiGate · Windows Server 2012–2022 · Active Directory (AD DS, DNS, DHCP, GPO, ADFS) · VMware vSphere / vCenter / ESXi · RADIUS/RadSec · Network Segmentation · Site-to-site / Client VPN · ISO 27001 · NIS2 · GDPR · SOC 2 · HIPAA · Cyber-insurance Readiness · Change Management · M&A IT Integration · vCIO / vCISO Advisory

EXPERIENCE

01/2026 – present **Founder & Principal Architect — Klaravex LLC (USA) · Klaravex EU, klaravex.de (Berlin, formerly IT Experts Berlin)**

- Designed and built the hybrid AI delivery platform: automated Tier 1/2 support, 24/7 monitoring with auto-remediation, onboarding/provisioning and reporting; escalation to senior engineers with fully documented context (2-hour SLA)
- Productised operations into a repeatable service (Foundation / Assurance / Directive) with a client portal: live system status, AI chat, engineer visibility, automated documentation
- Raised a client's Microsoft Secure Score from 32% to 78% in under 60 days (MFA, Conditional Access, M365 hardening, email security) — cyber-insurance requirements met
- Zero-downtime migrations: 28-user Microsoft 365 migration in one week with zero data loss; full firewall and switching replacement over one weekend with no business disruption
- Fractional vCIO / vCISO: technology roadmap, Azure adoption strategy, IT budgeting, readiness (HIPAA, SOC 2, GDPR, NIS2), board-level advisory

04/2024 – 05/2026 **Manager of Engineering – Infrastructure Architecture & Global IT Delivery — FDH Aero · remote / global (USA, Europe, Singapore, China)**

- Global infrastructure transformation programme: 12 sites migrated to Cisco Meraki SD-WAN (MX250)

HA clusters, vMX in Azure, VLAN micro-segmentation, MS-425 aggregation) with no production disruption

- Designed and operated an enterprise PKI in Azure (CA hierarchy, certificate templates, auto-enrolment via Intune SCEP/NDES, revocation): eliminated password-based authentication across 2,000+ managed endpoints, 100% certificate adoption
- RADIUS/RadSec 802.1X (EAP-TLS) at all 12 sites; shared WPA2 credentials fully eliminated, 99.2% Wi-Fi uptime
- Hybrid identity framework (Entra Connect, Hybrid Join, Conditional Access, MFA, PIM, SSO SAML/OIDC): 12 fragmented legacy environments consolidated under one governance model, 95%+ device compliance
- AD-to-Entra ID migration for four acquired companies: 3,200+ user accounts migrated with zero downtime, phased across time zones with rollback automation per phase
- APAC/China connectivity via Azure-hosted Meraki vMX with encrypted site-to-site tunnels and traffic segmentation (Great Firewall routing, data sovereignty)
- Tier 3 / global lead escalation for network, cloud and identity; advised VP and C-level on cloud roadmap, consolidation and cost optimisation

01/2018 – 04/2024 Principal Consultant – Managed Services — Centered Networks Inc · managed service provider, USA · remote

- Architected and deployed Azure and Microsoft 365 environments for 8+ client organisations (Entra ID, Exchange Online, SharePoint, Teams, Azure VPN, network segmentation); zero-downtime migrations, 99.9% post-migration uptime per SLA reporting
- Exchange Online migrations for 6 clients (350+ mailboxes) with zero data loss; Active Directory operated for 12 organisations (200+ servers, 800+ users), 99.95% authentication uptime
- Meraki SD-WAN and enterprise firewalls deployed and managed for 9 clients (15+ sites); 99% firewall uptime, zero security incidents across the portfolio
- M365 security baselines (Exchange Online Protection, Defender for Endpoint, Conditional Access); Intune MDM/MAM for Windows, iOS and Android fleets

01/2012 – 01/2018 Senior Systems Engineer — The World Bank Group / Bank-Fund Staff FCU · Washington, DC, USA

- Administered Altiris for software deployment and patch management
- Operated VMware vSphere environments (vCenter, vMotion, NSX)
- Led disaster-recovery simulations including requirements analysis and vendor coordination

01/2007 – 01/2012 Senior Network Administrator — Merrill Lynch / Bank of America · New York, USA

- Tier 3 support during the Merrill Lynch acquisition by Bank of America for 30,000+ end users
- Operational reorganisation delivering ~\$300K in annual cost savings
- Windows Server 2003 to 2012 migration

01/2005 – 01/2007 Senior Systems Engineer — Educational Testing Service · Princeton, NJ, USA

01/2004 – 01/2005 Junior Systems / Network Engineer — Pfizer · USA

EDUCATION

- Bachelor of Science in Computer Science (B.Sc.), Temple University, Philadelphia, PA, USA · 2005 – 2009
